PORTABLE HYDROGEN INHALER

Small Molecule

Energy

Healthy Life

Convenient

An Easy To Use Hydrogen Gas Therapy System That Gives You Access To The Most Powerful Form of H₂ Therapy!

The **PORTABLE INHALER** is easy to use and is stylish – making it perfect to take wherever you go! Be it around the house, at the office, visiting family or even on holiday!

Easy

Compact

Portable

Stylish

Advantages

Portable Inhaler

Stable H2 Flow

NO Additives

Safe & Efficient

Easy Operation

Convenient

Safety Design:

Intelligent Over-current Protection

Two Uses in one Unit:

Hydrogen Water to Drink & Hydrogen Inhaler

Material:

High-end Structure. Continuously use for 3 hours

Latest Upgrade:

Built in intelligent flow 120ml Electrolyser

SPE Technology of Hydrogen Production:

Polymer filtration and electrolysis of pure water to produce Hydrogen, no electrolyte is needed, only pure water is required. Produces stable Hydrogen with high H2 Purity.

Six Smart Protection Reminder Functions

Low Water

Over Pressure
